Why Use Sunscreens?

Prolonged exposure of the sun will lead to premature aging of the skin, wrinkles, discoloration, and even skin cancer. A good sunscreen is a must! Protect your skin from ultraviolet rays!

Don't be seen without sunscreen.

...Because life is reflected in your Skin

Did you know? In today's fast-paced and active world, lifestyles of women have changed dramatically. As such, women work hard for fit bodies and shapely curves. However, the over-the-top busty days are, for the most part, gone. The average American woman today is looking for a modest breast size. Furthermore, women with naturally large busts desire breast reductions – now, more than ever. Often, these patients suffer from neck pain, back pain and even headaches. Having a reduction will alleviate these symptoms, create a perkier breast, and more importantly, greatly improve the woman's emotional well being. If you desire a change in your breast size, call today and schedule a consultation with Dr. Grant Stevens or Dr. David Stoker to learn more about your options.

BODYTITE

Body Contouring and Skin Tightening in one procedure! BODY TITE, a new technique of liposculpture that incorporates suction and radio frequency in one. Like ThermoCool, it heats the dermis and tightens the skin. But, unlike ThermoCool, it does so from the inside... making your outside look "Oh, SO tight!" BODY TITE tightens loose arms, legs, backs, tummies, chests and love handles.

Look your very best -- Get *tite* this summer!
