Pearls of Wisdom

The coming of Spring is typically a time of Change – mimicking the country's desire to change for the better. You can feel it! A time of renewal, hope, promise, and possibilities. There is so much to be grateful for, even in the face of uncertainty. In a similar fashion, it's a time to renew our minds by weeding out old ideas, and bringing in new attitudes and a renewed spirit. We can renew our bodies as well. Spring is often a period when we re-evaluate ourselves. Many people find themselves looking in the mirror and wanting a fresher more youthful look. While aging is inevitable, our newest procedures can certainly slow down the aging process. Our favorites: PEARL & PEARL FRACTIONAL. These treatments smooth skin, resurface, remove sun and age spots, and keep wrinkles at bay, restoring a youthful glow. Even Dr. Stevens chose wisely for himself...he just had his Pearl... and is younger and wiser for it!

We perform a complete range of non-ablative procedures for anti-aging and skin rejuvenation. All treatments can be performed in-office and costs are reasonable. If you are ready for a change, starting with yourself, and want to look young and rested, call now and schedule a consultation with us to learn how we can help!

Breast Reduction Not Just For Women

Breast reduction surgery is desired by those that have excessive breast tissue. Did you know that both men and women suffer? For males, the condition is called gynecomastia – and is equally treatable for men, as for women. This life changing surgery is typically covered by insurance. Call now to determine if you are a candidate for Breast Reduction, and get ready to change for the better!

Kiss Me

Pierce the heart of someone you love. Greet them with irresistible soft, full lips! Need help? Our extensive line of injectable fillers can plump, fill and define your lips for that sexy mouth that is oh-so-kissable. Within minutes, you've gone from puny to pouty. Pucker up, make a wish, and then seal it with a kiss.

AB-Solutely Hot!

With bikini season around the corner, we'd like to help you feel your AB-solute best. Be Smart. SmartLipo that is! www.LASmartLipo.com

Nipple Surgery...is on the rise. Men and women are affected by inverted nipples. This affects patients both physically and emotionally, and yet is easily correctable. Additionally, areolar correction is often sought out for those with asymmetry. We specialize in this surgery, and invite you to visit: www.NippleRepair.com ...where you can learn more, and even pick the perfect nipple!

Restylane is now being used where you'd least expect: Earlobes, Nasal tip and bridge, Nipples, Chin, Hands and Areolas. This filler is coming in handy to rejuvenate and correct even the most unexpected of areas!

Dear Charlie:

What is the most interesting part of your job?

- Just Curious

George, 29 years old

Dear George:

Hands down, people's mind-set. I am always fascinated by what people share, and often I learn so much about human nature. For example, in times of economic uncertainty, my patients tell me that they still desire to look better, as "there are no guarantees in life", and "why not live in the moment since life is not a dress rehearsal". I find our clients to be exceptionally positive about their mindset and outlook on life in general – which is uplifting and positive for me. I am humbled in that I often think I am here to help others – yet it is a symbiotic relationship, in that others help me as well – to open my mind, see possibilities I'd often overlook, and to realize that our industry changes lives – not just bodies. It creates a foundation for people to look and feel their best – and that leads to more confidence at work and home. This field is far from being superficial, as some might judge. Our work touches people deep in their hearts and souls, and their stories of hope, courage and strength in turn, touches me. I say – this job is far from plastic! Pretty interesting, isn't it, Curious George?!

Promise yourself... that YOU will be your first priority this year. Think: 2009 is MY time! We have just completed celebrating the season of giving to others; now it's time for ourselves. Pamper yourself this month. When you take care of yourself, you feel better, laugh more, and live a longer, healthier life.

Latisse has just arrived!
