## A New Spring In Your Step

Marina Plastic Surgery is PROUD to welcome Dr. Michelle Spring to our practice! Dr. Spring brings a woman's touch to your Marina Surgical Experience. She completed the Marina Aesthetic Surgery Fellowship under the direction of Dr. Grant Stevens.

Dr. Spring received her medical degree from the University of Wisconsin-Madison, followed by a full residency in plastic and reconstructive surgery. As the Interplast Fellow, she traveled extensively abroad in underdeveloped countries such as Bangladesh, China and India, teaching and performing free reconstructive surgery on hundreds of patients with disfiguring burns and deformities such as cleft lips and palates, helping them lead a more normal life. Call NOW to schedule your COMPLIMENTARY CONSULTATION with Dr. Michelle Spring...And SPRING into the body you have always dreamed of!

## Tech DOC

Dr. Stevens, an industry visionary, was recently named "The TECH DOC" for his cutting-edge practice. He was coined this name after combining the Sciences of Technology and of Medicine, ensuring that he is the front runner in all aspects of plastic and reconstructive surgery. His practice now includes the latest gadgets and widgets, such as: TOUCH MD (where you can virtually upload your office visit to your home), his own iPhone APP, and PANDA, just to name a few.

## GOING STRONG

More than 1.6 million Americans went under the knife for beauty in 2010, receiving breast implants, liposuction or facelifts, sending the rate of cosmetic surgeries up almost 9% from the prior year. Plastic surgeons say the increase generally tracks a reviving economy: A 2009 Cleveland Clinic study found a direct correlation between plastic surgery procedures and trends in the S&P 500, Dow Jones and NASDAQ indexing. Americans spent \$6.6 billion on cosmetic surgery in 2010. The five most popular surgical procedures in 2010 were breast augmentation, liposuction, eyelid surgery, tummy tuck and breast reduction. All were up, compared with 2009. Breast augmentation, the most popular cosmetic surgery procedure since 2008, has held fairly consistent during the recession, with the number of surgeries increasing 2% in 2010. Americans spent nearly \$1.2 billion on breast augmentation in 2010, more than any other procedure. Facelifts rebounded in 2010, increasing 35% from 2009. Facelift procedures decreased in 2008 and fell sharply in 2009. But in 2010, Americans spent \$845 million on facelifts. (Wall Street Journal 4/5/11)

## The Clear Choice

If you haven't discovered some of our newest skin care products, you're in for a treat! Revolutionary changes in formulas and technologies have now allowed for products that will literally change the appearance of your skin, beyond what you thought possible from a jar! Ask our MD's, PA's or our master aestheticians what will work for you!

## Dear Charlie:

Is there a product that will really work on my wrinkles?

~ Tony

Dear Tony:

Certainly there are no miracle-cures. However, I suggest you try Peptide Mobilizer by Dermaquest! It contains snake venom (yes, really!) that actually diminishes your fine lines and wrinkles right before your very eyes! Many products make this claim, but this one works more effectively than anything I've ever tested! Within 2 weeks I noticed incredible results, which is why I wouldn't be caught without it! Sssssso, give it a try!

~ Charlie

## Congratulations!

To Dr. Grant Stevens, for the following achievements:

- **Castle Connolly:** The Best Plastic Surgeons in America
- **Newsweek Magazine:** Best Surgeons in America
- **Visiting Professor** at Northwestern University and Washington University in St Louis

*Are You  
A YUMMY MAMA?*

Now is the time to have that breast augmentation you've always desired! Or perhaps after having children, you simply want your pre-baby body back. Often pregnancy leaves us with saggy breasts or extra skin in the abdomen.

Dr. Stevens, Dr. Stoker and Dr. Spring can discuss your options to achieve fuller, perkier breasts or to regain the flat tummy you once had. Call today to schedule an appointment to discuss what Mommy Makeover options are available to you. Your dream body is just a bikini away!

*...Because Aging Should Be Beautiful!*

*Get The Curves You Deserve!*

When choosing a plastic surgeon, qualities to consider include the surgeon's training, credentials, experience, office, a team of highly qualified personnel and operating facilities. It may surprise you to know that almost any type of medical doctor can legally perform cosmetic surgery and there is little requirement for qualified personnel. Some even represent that they are plastic surgery "specialists." However, only those physicians who have completed an accredited residency program specifically in plastic surgery can call themselves "Plastic Surgeons," while any doctor can call themselves a Cosmetic Surgeon.
