**OFF THE RACK** Millions of women suffer from back pain, neck pain, and headaches due to excessively large breasts. Each year thousands of women undergo Breast Reduction surgery and are immediately alleviated from their discomfort. In addition to these benefits, breast reduction surgery has been shown to lower breast cancer risk! We specialize in Laser Bra Breast Reduction surgery and are here to help you or someone you know. This is a reconstructive surgery (not cosmetic) so it is typically covered by insurance. This procedure saves lives and improves the quality of a woman's life both physically and emotionally...Not to mention, shopping off-the-rack becomes easier than ever before!

According to a recent report in The Los Angeles Times (2/20/12), **PLASTIC SURGERY DOES MAKE YOU LOOK YOUNGER!**

Hoping to come up with "an objective measure of surgical success" — and not have to depend solely on patient-reported satisfaction to assess the success of cosmetic surgery procedures — the researchers, from the University of Toronto in Canada and the North-Shore University Health System in Evanston, Ill., determined that an average of a 7.2 Year reduction in perceived age results after having cosmetic surgery! So we invite you to contact us at Marina Plastic Surgery, and we'll help you to look as young and natural as possible while you LIVE LIFE to its fullest! Pamper yourself! When you take care of yourself, you feel better, laugh more, and live a longer, healthier life.
