TREATMENTS FOR TWO!

As reported on NBC's: The Today Show, more and more couples are going under the knife together than ever! They are opting for nips and tucks – as a team. Despite vows to marry and "grow old together", the new trend is to commit to "growing younger together", and looking as young as they feel. Couples are coming in to our office seeking procedures together and state that teaming up reinforces their bond psychologically and offers unbiased support. **SO** why not call today and slow the signs of aging - The trend is here to stay, and besides...it's just what the doctor ordered!

BABY BOOMER FACELIFTS

Most face lifts and neck lifts are done during the Spring. The reason is simple: Men and women have recently set their New Year's resolutions and are ready to make positive life changes. Furthermore, it is an ideal time to recover during these months, as the weather is cool and comfortable. Professionals feel that they wear their resume on their face, and youthful looks keep them competitive and fresh. So, face it, it is a New Year, and the time is **NOW TO GET STARTED ON IMPROVING YOUR APPEARANCE SO THAT YOU CAN FACE 2012 WITH CONFIDENCE.**

THAT'S THE BEAUTY OF US!

Spring is a time of renewal and freshness - bringing in new attitudes and a renewed spirit. We can renew our bodies as well. Often we find ourselves looking in the mirror and wanting a fresher more youthful look – yet aren't ready for a facelift. While aging is inevitable, our newest procedures can certainly slow down the aging process. We offer everything from easy Clear & Brilliant treatments to deeper procedures such as Pearl Fractional and Thermage. These lasers, light sources and radiofrequency treatments smooth and tighten skin, keep wrinkles at a minimum, and restore a youthful glow. We perform the complete range of non-ablative procedures for anti-aging and skin rejuvenation. All treatments can be performed in-office with little to no downtime, and costs are reasonable. If you want to look as young as you feel, call now and schedule a consultation with us to learn how we can help!

quick fix

You now have 3 options of muscle relaxing agents to soften deep facial lines. Botox®, Dysport® and now, Xeomin. We are offering FDA approved Xeomin, the newest Botox® alternative that makes faces smoother, and more aesthetically pleasing, with the added benefit that patients will not become resistant to it as they sometimes do with Botox. Xeomin (known as "Naked Botox") costs less, and according to the studies may last longer, a bonus for the right patient.

BEAUTY IS OUR LANGUAGE

Did you know that most non-surgical cosmetic procedures actually slow the aging process?!! That means a younger, fresher YOU for many years to come!
