“BOOTY-ful”!

The “Brazilian Butt Lift”, also referred to as buttock enhancement, is designed to create a fuller, curvier derriere and a more sensual body profile. The procedure is not actually a “lift” but rather, a transfer of fat from another area of your body. By using your own fat (as opposed to implants) it creates a much more natural look and feel. Over the last decade, round shapely prominent buttocks have become the envy of all men, and epitomize the femininity of a woman. Brazilian women are famous for their gorgeous bodies, but now, you don't have to go to Rio to get a “Beautiful Behind!” Simply call our office and set up a FREE consultation today to get started on a beautiful ‘booty’ for tomorrow!
